PROFESSIONAL SUMMARY

Entry-level Full Stack Developer with a foundation in the MERN stack and hands-on project experience building responsive web applications. Familiar with developing React interfaces, creating REST APIs with Node.js and Express, and managing application data with MongoDB. Eager to contribute to a development team and continue growing through practical software development work.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST API development
Database: MongoDB, Mongoose
Tools: Git, GitHub, Postman, Vite

PROJECTS

Fitness Class Booking Application | MERN Stack

- Developed a fitness class booking application with role-based experiences for users and trainers.
- Implemented class browsing, booking workflows, schedule management, user profiles, and dashboard features.
- Built REST API integrations for authentication, classes, bookings, trainer schedules, and profile updates.
- Worked with React, Tailwind CSS, Express.js, MongoDB, and Axios; used JWT-based authentication flow.

Invoice Builder Application | React

- Built an invoice management interface to create, view, edit, and delete invoice records.
- Implemented invoice items, totals calculations, status handling, preview, and PDF export functionality.
- Created reusable React components and styled the interface with Tailwind CSS.

EDUCATION

B.E. – Computer Science and Engineering (CSE)
Sams College of Engineering and Technology | 2015
Academic Score: 65%

CERTIFICATION

MERN Stack Certification
